**FOR IMMEDIATE RELEASE**

**November 25, 2008**

**Legent Clearing teams with Fetter Logic to offer enhanced Compliance and Reporting Services**

Omaha, NE - Legent Clearing and Fetter Logic are announcing a partnership enabling Legent's correspondents to benefit from a wide range of compliance functionality and management reporting tools. This initiative lays the foundation for the expansion of Legent's core clearing platform to include value-added services, applications, and more accessible tools and technology.

Utilizing Fetter Logic's unified data warehouse and its Q Suite™ of applications, Legent will offer enhanced report functionality encompassing operations, finance, trading, and compliance. Fetter Logic's ReportQ™ product empowers business users to directly explore a firm's data through an intuitive, web-based report designer. Legent correspondents will be able to utilize available data to create or modify reports to suit their business needs. Combining Fetter Logic's unparalleled knowledge of data and data structures with Legent's robust correspondent clearing capabilities, ReportQ enables firms to efficiently supplement or replace canned reports, greatly expanding their coverage and usefulness and substantially increasing their timeliness.

"Fetter Logic's reputation as an industry leader in this arena is a natural fit to our strategic goal of continuously expanding our platform of products and services making it easier for our clients to access valuable information according to their preferences," says Raymond Maratea, Legent's co-president. "We see a growing need for firms to have a more comprehensive, web-based view of their overall business activity and the Fetter Logic Q Suite™ will help us deliver on that."

**About Legent Clearing**

Legent Clearing is a leading independent provider of correspondent clearing services to broker/dealers nationwide. Since its founding in 2002, Legent has grown rapidly as a result of its unique combination of independence, alliances with providers of best-of-breed technology and investment vehicles and from its

ability to offer customized solutions for each correspondent client. Legent provides access to investment products and services including equities, mutual funds, foreign securities, fixed income investments, prime brokerage, options, annuities, DVP/RVP and WRAP accounts through a variety of online tools and platforms. Legent Clearing, a wholly owned subsidiary of Legent Group, is headquartered in Omaha, Nebraska.
